

Spring 2024 Tree and Shrub Order Form

Trees and shrubs are now available to purchase through Maitland Conservation's Spring 2024 Tree and Shrub Order. The program supplies planting stock that will produce conservation related benefits for projects such as windbreaks, stream buffers, reforestation, and roadside plantings.

How to Order

Submit the attached, completed order form by email to trees@mvca.on.ca, by fax to 519-335-3516, or by mail to:

Maitland Conservation
Box 127, 1093 Marietta St.
Wroxeter, ON
N0G 2X0

**Pickup and payment will be arranged in the spring. See Conditions of Ordering for more details.*

Grants Available!

Various grants are available through federal, provincial, and municipal programs. Depending on the size and nature of your project, you may be eligible for cost-share funding. Our staff can provide details on available programs, discuss your eligibility, and provide assistance with select programs.

Planting Services

Maitland Conservation offers planning and contractor coordination services for restoration level projects. If hiring a contractor, we recommend confirming their stock acquisition process before submitting an order.

For more information, please contact:
Maitland Conservation Stewardship Services
Phone: 519-335-3557 ext. 235
Email: trees@mvca.on.ca

Or visit our website: mvca.on.ca

Orders must be submitted by Wednesday, January 31, 2024

2024 Tree and Shrub Order Form

Conditions of Ordering – Please Read:

1. An Administration Fee of \$20.00 will be added to each order.
2. Customers must order a minimum of **5 large stock trees or shrubs, or 50 seedlings**. Seedlings must be purchased in **bundles of 10**.
3. The trees are restoration grade stock making them suitable for stewardship projects including windbreaks, riparian buffers and fragile land retirement.
4. Customers are responsible for the pick up of trees. Pick up will be at the *Maitland Conservation Administration Centre* from May 1—4, 2024. **Maitland Conservation will reach out in the spring to schedule the pick up date and time.**
5. Customers will receive invoices at the time of pick up. Payment options include debit, credit, e-transfer, and cheque. **Prices are subject to change depending on supplier cost and availability.**
6. **Deposits** will be required **for orders over \$5000**. Staff will connect with you in the New Year to arrange deposit details.
7. Maitland Conservation takes all precautions to ensure the trees are distributed in the best possible condition. **Due to environmental conditions beyond the control of Maitland Conservation, we assume no responsibility for the survival rates of the trees.**

Customer Information

Personal information on this form is collected under the authority of the Conservation Authorities Act Section 21, and will be used to determine eligibility for funding opportunities.

OTHER SITE CONSIDERATIONS

Salt spray from roads can harm plants. Sensitive trees and shrubs that should be avoided near roadways, include:

- Sugar maple
- Black walnut
- White pine
- Red maple
- Hackberry
- Highbush cranberry

Black walnuts release a chemical that can inhibit other plant growth. Tolerant trees and shrubs that can be planted in close proximity include:

- White Cedar
- Bitternut hickory
- Staghorn sumac
- Sugar maple
- Black cherry
- Elderberry
- Red maple
- Red-osier dogwood
- Ninebark
- Sycamore
- Alternate leaf dogwood
- Spicebush
- Tulip tree
- Serviceberry
- Black raspberry
