

## Proposed Tree Planting Fees

March 20, 2024

Maitland Conservation's stewardship service is planning to take the first step in building capacity for our existing forestry planting service. In 2024, we plan to plant a few sites that in the past were planted by neighbouring Conservation Authorities. The proposed additional fees are as follows:

Service	Cost
Hand planting large stock trees and shrubs	\$14 / tree or shrub
Note: There is a minimum hand planting fee of \$1,000 for large stock plantings	

Note: these prices are only for projects planted by Maitland Conservation. Neighbouring Conservation Authority fee schedules will apply if projects are coordinated but not planted by Maitland Conservation.

Maitland Conservation Members reviewed the proposed fees at their March 20, 2024 meeting. Public comments on the proposed fees are currently being accepted. Please submit your comments by May 6, 2024 to:

Shannon Millar, Restoration Supervisor

[smillar@mvca.on.ca](mailto:smillar@mvca.on.ca)

519-335-3557 ext. 233

Maitland Conservation Members will review the fees again at their meeting on May 15, 2024.
